SUMMARY

Frontend Developer with 2 years of experience in building responsive and user-friendly web applications using React, JavaScript, HTML, and CSS. Strong understanding of component-based development, UI logic, and API integration. Focused on clean UI, performance, and real-world project delivery.

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React Js

Styling: CSS Flexbox, Grid, Bootstrap

Tools: Git, GitLab, GitHub, VS Code

UI/UX & Design: Figma (Wireframing, Prototyping, Design Collaboration, Design handoff, Layout understanding, Spacing & Responsiveness)

APIs: REST APIs, JSON, Axios

ROLES & RESPONSIBILITIES

- Developed responsive and interactive user interfaces using React.js, JavaScript (ES6+), HTML5, and CSS3.
- Converted Figma wireframes and designs into pixel-perfect, reusable React components while maintaining design consistency.
- Implemented component-based architecture to improve code reusability and maintainability.
- Ensured cross-browser compatibility and responsiveness using CSS Flexbox, Grid, and Bootstrap.
- Collaborated with UI/UX designers to understand layout, spacing, responsiveness, and user experience requirements.
- Fixed UI bugs, optimized performance, and enhanced overall application usability.
- Analyzed business and functional requirements and converted them into user-friendly Figma wireframes and UI designs before development.
- Participated in code reviews and implemented feedback to improve code quality.
